VISION
Create Opportunities for deprived youth, empowering them to lead economically productive and socially useful lives

MISSION
To give a second chance to deprived youth through sustainable livelihood opportunities based on rural and urban livelihood skill training programs, that leads to attitudinal change and income generation
As all Indians celebrate India@75, we also need to look at Rural India@75, since 60% of the Indian population and 90% of tribal population lives in villages.

The devastation caused by the pandemic has pushed the rural poor from poverty to extreme poverty. A recent World Bank Policy Research Paper shows that the rate of reduction of poverty had anyway slowed down during the past decade, and the pandemic delivered a bigger blow to it.

Rural India is getting left behind, and will continue to do so as long as the crucial issue of small rural livelihoods remains neglected. I am proud to say that this is precisely where the sharp focus of our Kherwadi Social Welfare Association has been. Our relentless push on reaching out for transforming lives in rural India assumes critical importance in this context.

On 15 February 2023, we will be celebrating our silver jubilee and the perfect time for us to look back as well as look forward.

Looking back, KSWA’s flagship program Yuva Parivartan (YP) has been a movement that is focussed on providing livelihood training and support to underprivileged youth in villages and city slums. From a small beginning with one centre in Kherwadi, it is a matter of pride that we are now covering 18 states and making a significant contribution to giving a ‘second chance’ to our disadvantaged, marginalised youth. YP has expanded not only its scale but also its scope. It now touches several areas such as livelihoods, rural development, entrepreneurship development, financial inclusion and women empowerment.

Context decides the content. We at YP are no exception. Indeed, at YP we are reinventing ourselves. Our mobile livelihood development centres have done a remarkable job. Now we are raising our aspirations to designing for sustainable rural livelihood creation and impacting at household as well as community level. We are particularly focusing on scaling up our skilling programmes to make a vast impact on livelihood generation. Our key words are speed, scale and sustainability.

Our vision has been to help other NGOs by handholding small and medium sized NGOs so that they stabilise and grow sustainably. To fulfil this vision, a major program called Yuva Engage (YE) is being launched. After YP, it will be YE that will be a major flagship program.

It is a matter of pride that we not only survived but succeeded despite the adversity of Covid. This was possible because of the dynamic leadership of Milind Chitre and his amazing team, the advice and guidance of our Advisory Board and the generous support of our well wishers. We thank them all from the bottom of our heart.

Dr. Raghunath Mashelkar, FRS
Chairman
Advisory Board
KSWA
President’s Message

Rural Livelihoods have been a neglected issue in India’s 75 years history and while some steps are being taken now to address the problem of small rural livelihoods, much needs to be done. Yuva Parivartan has been focusing on this issue for the last 15 years through Mobile Livelihood Development Centres & I am very happy that under the leadership of Milind Chitre CEO and his team, improvement of farm incomes has become a priority and focus area which I am sure will lead to a breakthrough for the benefit of the farm sector.

With India’s ambitions as a major economy growing rapidly, there are already indications that the government is seriously looking at increasing farm income and improving the participation of women in the workforce, and some initiatives have already been rolled out for this purpose. Through our intervention in rural India over the last 15 years, we have already seen a new class of aspirational youth who are now accepting self-employment in a positive spirit. We see that while males are looking at skill based opportunities, women are contributing to improvement of farm incomes through productive kitchen gardens, backyard poultry, goatery, horticulture etc on their own initiative. What is encouraging is that while this aspirational group is small, it is growing at a steady pace.

Another cause for satisfaction is the fulfilment of my 20-year-old dream of helping address the high mortality rate of NGOs in the social sector. I am happy to inform you that a year ago Kherwadi Social Welfare Association started a second initiative called Yuva Engage (YE) after the success of its first initiative of Yuva Parivartan. YE will handhold start-up NGOs and help small NGOs to scale up, in rural areas.

The validity of our concept was established early this year and a pilot batch with 100 NGOs is currently underway. We plan to launch YE as a major initiative on 15th February, 2023 at the inaugural event of Yuva Parivartan’s Silver Jubilee.

Thank you, dear stakeholders for your continuing support.

Yours in Service,

Kishor Kher
President & Trustee
Preamble

Our theme last year was “Reaching out, Transforming lives”.

When we started YP in 1998, our aim was to have one centre in Kherwadi and cover Mumbai city extensively. But that was not to be.

The challenges of youth, their mental & physical limitations and issues were innumerable, making us realize that YP cannot be confined to Bandra East and surrounding areas alone. We needed to explore skilling and expand YP to other areas.

This realization made us visit educational institutions, ITIs in Maharashtra and private institutions in technical education. We noticed that most were non-inclusive due to the many stringent mandatory requirements which left out the major population of youth in cities, towns villages & tribal India.

The YP model has evolved from our learnings in running YP in remote Uri, Anantnag in J.K. to the conflict zones of Jharkhand, MP, Chhattisgarh to remote areas of Rajasthan, Maharashtra and now AP, Telangana. Each challenge & experience has added greatly to our knowledge.

The vastness of India is overwhelming. The population, different communities, the geographical spread from tropical forests, to snow-capped mountains, to the long coastline and the Thar desert, makes our country intriguing and mystical. All of us at YP never realized the challenge we had taken up to reach disadvantaged and marginalized young boys and girls.

In 2009 it was Mr. A.H. Tobaccowala of Voltas, a philanthropist who came forward to support us if we accepted the challenge of extending our movement to Bhiwandi, a textile weaving hub of migrant workers and Wada, a town in the tribal region of the then Thane district. We started the “Anwarali Tobaccowala Welfare Centre” in Wada by purchasing a building. This introduction to the rural economy, has today helped us to work in over 400+ villages in the now Palghar District and 150 villages in the remote East of Maharashtra and also four districts and more in AP, Telangana & Orissa.

The statistics show 60% of our population lives in the villages while 90% of tribals live in villages and 10% in towns. If we want to become the most progressive and leading economy of the world, we cannot afford to neglect the 70% of our fellow countrymen with low connectivity and low technology adoption. The divide between, urban and rural India will continue to grow, and that is where NGOs have a big, vital role to play.

To be effective, we have to be passionate, focused on the health, nutrition, education and skilling of our real India i.e., our Bharat. KSWA needs other stakeholders to join us in our 100th year. Bharat @100 is our focus for 2047 and KSWA @100 for 2028.

The period 2022-2024 promises to be our most exciting 24 months for us.

Mrinalini Kher
Hon. Secretary & Trustee
The year started with all of us, reeling under the second wave of Covid, much more devastating than the first. As the second wave started to ebb from June onwards, Yuva Parivartan doubled its efforts and focus on “Reaching out and Transforming Lives” of the underprivileged youth and women, who were worst impacted by Covid.

We succeeded in this outreach due to the goal orientation, passion, and commitment and execution focus of team Yuva Parivartan- making an impact on 80,452 students during FY 21-22 compared to 43,394 in FY 20-21 and 38,404 in FY 2019-2020. For FY 22-23 team Yuva Parivartan has set an aspirational target of transforming 200,000 lives.

The foundation of this success and growth was laid through the “Re-inventing Yuva Parivartan” program in which, everyone from first line managers to the Trustees and Board of Advisors participated. As part of the reinvention program, a strategic visioning workshop was conducted, followed by a brainstorming session to identify the critical factors for scaling up and the successful implementation of the program, which culminated in our identifying the key thrust area for the next five years.

While Yuva Parivartan was addressing rural livelihoods for the last 15 years, through its mobile livelihood development centres, Yuva Parivartan will now design holistic programs for sustainable rural livelihood creation and development clusters of villages. Instead of creating an impact at an individual level, we aim to create an impact at a household and community level.

Yuva Parivartan’s Holistic Rural Development Program will target a cluster of villages for a period of 3-5 years. The intervention will combine primarily livelihood-based vocational and farm-based skill training and will be supplemented by the necessary infrastructure development for the cluster of villages. The impact of skilling programs will be multiplied by implementing complementary community infrastructure programs, leading to improved livelihood generation and better water supply, sanitation and healthcare.

The success of any program depends on the capacity, capability and the competency of the implementing team. Creating a team with required experience and skills and then nurturing, mentoring, training and providing them with the tools, processes and a technology backbone needs investment. While sponsors are more than willing to fund a program, not many are willing to fund the building of capacity and capability that is needed to implement these programs.

I request and look forward to support from all our program sponsors and other stakeholders in enhancing both capacity and capability of the Yuva Parivartan team.

I take this opportunity to thank all our partners, students and their families for demonstrating confidence and trust in our programs and thank our program sponsors, trustees and our Board of Advisors for their continued guidance and encouragement. My Special thanks to all YPians who are our backbone and help convert Yuva Parivartan’s dream into reality.

Milind Chitre
CEO
B. G. Kher - Our Founder

"Balasaheb Kher was one of the great men in India of our generation, a man of the highest integrity and devotion to the cause of India and the Indian people."

Condolence message from Prime Minister Jawaharlal Nehru in 1954

Balasaheb Gangadhar Kher was born on August 24, 1888 in Ratnagiri district of Maharashtra. He spent his formative years in Kundgol (former Jamkhandi State), and completed his B.A. from Mumbai University in 1908. He was a freedom fighter, the first Premier of Bombay Presidency and founded Kherwadi Social Welfare Association (KSWA) in 1928. Shri Balasaheb Kher happened on a chance to visit Bandra (East) a large tract of marshy land. He found a few hundred migrants living in very unhealthy conditions, lacking the basic infrastructure. Balasaheb gathered his Gandhian associates and established a committee to work for these few families. The committee was called “Chamdewala Committee” to help the khatiks from Rajasthan who were engaged in preparing soft leather. This was the beginning of what was renamed as Kherwadi, Bandra East in 1954.

The Committee started with establishing a dispensary, and providing educational services- a school from nursery upto 7th class. Then they focused on income generation by starting a sewing class, an unit to make matches for Khadi Village Commission & a soap making unit. When Balasaheb Kher joined the freedom movement, the work at Kherwadi continued with the support of his dedicated associates Dr. Jhaveri, Smt. Maniben Nanavati, Mr. Kora, Prof. V.G. Rao, Prof. V.B. Kamath, Master Santram Singh and others from the Kherwadi community.

Balasaheb Kher was an integral part of the various social and political movements in India and worked closely with Mahatma Gandhi, Pandit Jawaharlal Nehru, Subhash Chandra Bose and others.

In 1954, he was awarded the Padma Vibhushan in recognition of his sterling qualities and distinguished service to the country. After 1954, he devoted his time entirely to social work. In addition to his work at the Kherwadi Social Welfare Association, he also devoted his time to adivasi welfare with Adivasi Seva Mandal Balkan-ji-Bari, children's films, etc. He was also the Chairman of the Gandhi Smarak Nidhi, a position he held until his death on March 8, 1957.
Chief Minister BG Kher of Bombay State listening to P M Shri Jawaharlal Nehru, with Governor of Bombay Raja Maharaja Singh and Morarji Desai at Santa Cruz Airport in Bombay on March 3, 1951

Aug. 08, 1953 Mr. B.G. Kher Indian High commissioner, stands in front of a painting of Gandhiji while making a speech during the India Independence Day celebrations at India House, London

Presentation of colors to Home Guard, part of celebrations of Indian Independence Day at Brabourne Stadium, Bombay.

B. G. Kher(1st CM of Bombay State) salutes flag
“Yuva Parivartan relentlessly continues its noble mission to contribute to national need of upliftment of underprivileged youth. We give them a second chance of repositioning in society. We do this by imparting livelihood skills and making them economically independent on the strength of four powerful pillars, namely livelihood training, community engagement, placement support and industry partnership.”

Dr. R.A. Mashelkar  
Chairman – Advisory Board -YP

“I have had the pleasure and privilege of working closely with Yuva Parivartan since a decade in my capacity as Projects Committee chairperson of the NGO, the Time & Talents Club. The empowerment of our marginalised rural population, particularly the women and children are a cause that is very dear to our NGO and we are grateful to YP for giving us an opportunity to support a vast variety of projects in the vital areas of health and livelihoods. The dedication and compassion of the YP family is awesome and should serve as a role model. And we wish them even greater success in the future.”

Kamal Mulla  
Director, Projects - Time & Talent Club

“Yuva Parivartan is addressing a very important societal need, that of providing dignified and economically vibrant livelihood opportunities to youth whose formal education may have been interrupted due to various life circumstances. SPJIMR and its Centre for Innovation in Sustainable Development are excited about the opportunity to work with Yuva Parivartan to scale its offerings and impact in a digital world.”

Varun Nagraj  
Dean - SPJIMR
Introduction

Kherwadi Social Welfare Association (KSWA) presents its 67th Annual Report, celebrating uninterrupted reporting of its activities that defines the core value of its existence, since the past 94 years. Since its inception in 1928, KSWA’s founders have worked relentlessly for the community, its people, their welfare, their health, social & economic conditions and education. The Founder of KSWA, Late Shri. B.G. Kher, popularly known as Balasaheb Kher, adopted the area of Bandra East, then known as Chandewala-ki-Wadi to help the 100 odd families of tanners who were settled in that region. From Building first road, the first school, the earliest medical dispensary, the first vocational school and training institute for leather and the start of the first Government Polytechnic, in addition to all the public amenities are some of the major contributions of the great philanthropist and leader Balasaheb Kher.

He received immense support from his followers and colleagues of the freedom struggle movement, Prof. V. G. Rao, Mr. G. K. Rao, Diwan Bahadur, K. M. Jhaveri, Prof. V. B. Kamath, Mr. M. K. Natrajjan, Mr. V. V. Kora, Mr. N. R. Wadia, Mr. Valkunthrai Mehta, Mr. Tulsidas Khimji to name a few. The Trustees have continued work, following the Gandhian philosophy and traditions set by late Shri. B. G. Kher. KSWA has also been closely supported by the Khatik Community members who have lived in Bandra East for over 100 years.

Dental Clinic

The lack of medical facilities in Bandra East was severely felt in 1992. Sant Singh Sahney Medical Center was inaugurated in 1992. The center expanded from a general physician clinic to include eye clinic, paediatric, gynaec and dental clinic in 1995 with the help and encouragement from Rotarians and members of Inner Wheel Club of Bombay. The equipment and facilities are modern and are regularly upgraded. The charitable clinic has been popular for its effective treatments and reasonable rates. Except the dental clinic all other clinics were discontinued from 2010.

Balwadi

The Balwadi or Nursery school in our Head Office has been nurturing the little ones around our centre from 1930!! The founder of this institution Shri B G Kher, was disturbed to see the appalling conditions in which about 100 families from Rajasthan who were living in the most miserable conditions. Balasaheb Kher was so moved during this chance visit, that he immediately gathered his Gandhian friends to help serve this community. This was the beginning of the Kherwadi Social Welfare Association. Immediately a doctor’s clinic was set up and seeing education as another important aspect, a Nursery school was established in 1930.

It is said that BG Kher and his friends themselves would bathe the children and dress them in fresh clothes. Thus, the great work of this group continues to educate and nurtures about 120 children every year. Nutritional supplements like freshly cooked meals, health check-ups, celebration of festivals picnics and fun activities attract children from the nearby locality to our Balwadi.

Gymnasium

The Gymnasium was one of the earliest community activities we started as a way to attract youth to “Parishramalay” our centre in Kherwadi. Mr Madhukar Talwalkar, an icon in body building, was invited to inaugurate the facility and motivate the youth. The gymnasium equipment was funded through donations by Rotarians from the Rotary Club of Bombay and provided by Talwalkars’. This centre named “Parishramalay Gymnasium” gained fame by hosting regular competitions in Bodybuilding and inviting participants to compete for the title of “Kherwadi Shree.”

In the next few years we had over 150 to 170 participants from across Maharashtra vying for the title! The competitions continued for about 12 years sponsored by Rotarian Nalin Parikh for several years. Mr Suresh Shinde and his son Milind are managing the Gymnasium for the past 28 years. The Gym was recently renovated and new equipments were installed.

The Parishramalaya plot has mainly two buildings, one which houses the Head office of the Yuva Parivartan Project, dental clinic and gymnasium. The second building called the Urna Ghar, was the income generating space where in 1940s and 50s women were trained to spin wool on charkhas. Today this houses the Bandra Livelihood Development Centre (LDC), Yuva Parivartan Counseling Department, the Call centre.
Yuva Parivartan has a deep understanding and connect with the communities that we work in. Over the last 24 years, we have improved the employability of more than 1.25 million deprived youth and women through our skilling courses and helped them earn livelihood. Our course content, structure and delivery, flexibility of timings, focus on practical training and support to earning livelihoods is tailored to embark our students on their journey towards livelihood. The time to benefits is reduced due to short course durations ranging from 15 to 90 days.

Our network of field counsellors, community leaders, trainers and connects with local livelihood providers and/or enablers, coupled with our digital reach through social media and our e-learning app Yuva Kaushal, enables us to mobilize students at scale and help them earn wage or self-employment.

- Livelihood Development Centres (LDCs) are typically located in slums or rural backward areas and conduct short-term employment-oriented courses for youth. YP has 50 LDCs in Maharashtra, Madhya Pradesh, Chhattisgarh, Karnataka & Delhi.

- Rural Livelihood Development Centres (Village Camps) take the vocational skills courses to the rural interiors and tribal belts thereby reaching out to areas where setting up a Livelihood Development Centre might not be feasible. YP runs the village camps in Maharashtra, Madhya Pradesh, Chhattisgarh, Karnataka, and Telangana & Andhra Pradesh.

- Partnerships involve identifying, training and monitoring "like minded" NGOs to run the YP model of livelihoods training.

Under its Integrated Rural Development Program (IRDP) vertical, YP creates an impact in rural areas through its five pillars of:

- Agriculture including afforestation
- Animal Husbandry
- Water Resource Management including sanitation
- Women’s Empowerment including women and farmers self-help groups
- Farm and Non-Farm based Skills Training

Approach
YP adopts a community driven, needs based approach to design and implement its interventions. The IRDP team of more than 50 associates- with a combination of engineers, agriculturists, professional social workers and local community workers follow a program driven approach. YP/IRDP can set up a new program team in less than 30-45 days depending on the size and complexity of the program. YP’s IRDP programs have been funded by marquee sponsors like HSBC, Tata Trusts, Mukul Madhav Foundation, Volkart Foundation, R.G Manudhane Foundation, The Time and Talents Club to name a few. YP also collaborates with

Interventions in Palghar district
The Akhtarali H. Tobaccowala Model Farm and Training Centre, Wada block, Palghar district, Maharashtra state is a knowledge and demonstration centre for showcasing innovative ideas and practices on the 3.5 acres land dedicated to rural development.

Despite the COVID pandemic and repeated lock downs, the team at The Akhtarali H. Tobaccowala Model Farm and Training Centre, fondly known as The Demonstration Farm found ways and means to continue to serve the people, at the farm and in the community.

The following activities were conducted at the Demonstration Farm

Come to learn, volunteer....
A total of 340 visitors were hosted at The Demonstration Farm. The representation included urban and rural folks, families, adults and children.

A number of out station school teachers from NGO - QUEST, and trainers from Colour Academy, Asian Paints availed of the residential facilities at The Demonstration Farm during their training programs. The number totalled 383 nights.

Aao Gaon Chale
The Indian Medical Association, Mumbai branch implements its Aao Gaon Chale program at the Demonstration Farm, where a team of 5 doctors (including one gynaecologist) visits every month to offer free consultation and medicines to a minimum of 100 villagers on a pre decided Sunday.

A total of 6 monthly medical check-ups were organised and covered 732 patients.

Skilling of villagers at the village level
Since there were gram panchayat restrictions on the number of villagers visiting, The Demonstration Farm team organized training programs in village communities. The following were skilled and provided with start – up kits to commence livelihoods

- 386 men in multi – skill training (basic training in house painting, plumbing, masonry, electrical work)
- 272 villagers in Improved Kitchen Gardens
- 50 households in Backyard Poultry
- 47 villagers in Honey Bee Keeping
- 80 tribal women in Basic Tailoring

Research
Based on the past few months’ observations and outputs, it has been confirmed that for a landless farmer with just one gunta- approx. 1000 sq. ft. land holding, agriculture alone will not provide adequate income to the family; his Income needs to be augmented by Backyard poultry and Vermi composting.

Infrastructure
Exposure visits of villagers to The Demonstration Farm to learn about various agriculture, livestock, water, sanitation and other interventions, has broadened the horizon of villagers, exposed them to several new interventions and has resulted in many of them being implemented at the village level with the support of donors.

- One such intervention is installation of 60 solar street lights in 4 adjoining villages
Interventions in Gadchiroli district

To address the challenges of piling waste, low payment to rag pickers, and unsafe unhygienic period huts, KSWA has come up with a concept of Converting unsafe Period Huts into Safe Resting Homes for menstruating women using bottle-bricks. Eco – bricks are used plastic bottles filled with compacted material like sand to create a dense strong brick for construction. They are four times stronger than an average earthen brick. Based on research, plastic bottles are made from a product known as polyethylene terephthalate (PET) which is non-biodegradable, and remains intact for around 1,650 years. Therefore, any construction done using bottle – bricks, can last a couple of decades. The bottle – brick is a solution to recycle - already created and disposed plastic bottles sitting in dumps and oceans while also preventing wild and marine life death, entrapment and poisoning.

The prototype created at The Demonstration Farm, Wada block and the first Safe Resting Home for menstruating women in Tukum, Gadchiroli were structurally audited.

During the year, 7 Safe Resting Houses were constructed in Gadchiroli and Rajnandgaon districts upcycling 52,500 plastic bottles into eco bricks, improving the health and safety of app 350 women & providing employment for rag pickers and masons skilled by KSWA. Women utilizing the Safe Resting Houses were skilled under Green Jobs. The most visible change was seen in men who have started helping the women in bringing down the unsafe Period Huts and crafting eco – bricks.

The Safe Resting Houses served as an entry point for village development. Thereafter, 260 household toilets were constructed in the gram panchayats where the Safe Resting Houses are located. This intervention facilitated the declaration of 8 gram panchayats as Open Defecation Free, it will protect the health and safety of villagers and provide on job training and increased income to masons and laborers.

Post skilling, a production centre managed by Self Help Group women for making reusable washable sanitary napkins was started. Three women’s Self Help Groups commenced Food Services to provide lunches to the disadvantaged.

A 4 acre Demonstration Farm has been established in Gadchiroli.

The following villagers were skilled

IRDP - Case Studies

Case Study Promoting reusable washable sanitary napkins

According to the National Family and Health Survey, 42 percent of women in India in the age group of 15-24 years do not use a hygienic method to deal with menstruation. In Gadchiroli district, the very traditional tribal women may use strips made of Mahua leaves covered with paddy chaff as sanitary napkins while others use old pieces of cloth.

It is for the reasons mentioned above and the negative impact on the health of women, KSWA came up with the idea of Crafting reusable washable cloth sanitary napkins to promote menstrual hygiene, and create livelihoods for women.

Advantages of Cloth Sanitary Napkins

- Reduce the monthly cost for a woman on menstrual products,
- Impacts the environment positively, and
- When crafted by women, provides women flexible timings for employment and income.

Post training in basic tailoring and specialized training with a focus on crafting reusable washable sanitary napkins, the women of Navijvan Mahila Bachat Gat, Gadchiroli commenced crafting reusable washable sanitary napkins which have been distributed to 1,200 women. The SHG has earned Rs 240,000.00 for making the sanitary napkins.

Washable sanitary napkin when opened… when folded ready to use    Navijvan Mahila Bachat Gat    Distribution of sanitary napkins
Story of Impact – Ma Ki Roti

The Ma Ki Roti project is conceptualized by Ma Foundation. The underlining principle is that nobody should go to bed on an empty stomach. The strategy followed is: a needy Self-Help Group (SHG) earns an income by cooking and serving subsidized lunches to 50 poor residents daily. The value of each lunch which consists of a bowl of rice, dhal, vegetable and 3 chapattis, is Rs 20/-. The diner is to pay Rs 10/- while the balance amount of Rs 10/- comes from a sourced grant.

Based on KSWA’s experience of implementing 3 Ma Ki Roti projects in Gadchiroli district, each SHG earns Rs 18,000/- per month as labour. To summarise, each SHG woman works in rotation for an assured 9 days a month, each day for 6 hours doing non-heavy, non-manual work to earn Rs 1,800/-. In additional, she gets a free lunch on those 9 days.

SHG members comment that they feel liberated implementing this livelihood activity as it
• Is assured income for 9 days in a month
• Is non-manual labour,
• Cooking is something natural and enjoyable to them,
• Assures them of a clean and nutritious meal on 9 days of the month
• Allows them flexibility in choosing dates to cook and serve as well as take up other livelihood opportunities, and finally
• Gives them immense satisfaction serving the poor.

Jaganath Arjun Kukudkar is a 80 year old widower who lives in Tarasa, Taluka Gondpimpari, Chandrapur District, Maharashtra State. His sons left him to fend for himself. Jaganath lives in a small hut outside the village. He is too old to work and begs in the market place. If he is lucky, he gets some money to buy some food to eat. At times, when he gets nothing from begging, he goes to bed hungry.

One day while returning home from begging, he came across Ma Ki Roti.

From that day, he has been paying Rs 10/- that he earns form begging and enjoys a nutritious meal of rice, chapattis, dhal and vegetable. He says “my sons are not taking care of me in my old age, but Ma Ki Roti is ! “

Istari Balya Godshala is a 40 year old widower who lives in Kautala, Asifabad district, Telangana state. A couple of years ago, Istari’s wife fell ill, and Istari spent all his hard earned money on her treatment but she never recovered. He was left to raise a young daughter alone.

He had a psychological break down. With his consent, his neighbours enrolled his daughter in a government residential school for education and care.

Istari’s condition deteriorated. He suffered a lot. He lost interest in living.

A neighbour brought him to Ma Ki Roti, and from that day, he has been eating his lunch here.

Tribal communities of Central India consider themselves to be the guardians of Mahua. Mahua trees are precious because they are an essential part of tribal livelihood. The flowers, fruits and leaves have numerous uses and are also edible. The trees produce a huge number of seeds and are therefore cultivated more for their seeds, wood and flowers ‘Access to products like mahua, tendu leaf and edible gum is a matter of life and death to the tribals.’

While connecting with Self- Help Groups (SHGs), the KSWA team met with Adarsh Mahila Bachat Gat, based in Dhanora block, Gadchiroli district. The 12 member heterogenous group was involved in catering; making pickles, papads and Mahua flower food products. Their biggest challenge was marketing of their products.

A planned meeting with Rahul Dhaval, The Executive Chef, WESTIN to seek support to create an exotic version of the Mahua Laddu resulted in Mahua Laddus which tasted less sweet, were more nutritious, have a longer shelf life and looked better.

In March 2022, Nicola Monteiro, Kherwadi Social Welfare Association was awarded the 1st Runner up in the NGO Category.

New Territories - Expansion in the state of Gujarat
The IRDP team has moved into 3 new states, namely, Chattisgarh, Gujarat and Telangana.
Human Resources & Administration
Uday A. Dalvi – Associate Director

Highlights of HR & Admin Department

- Employee Engagement Activities: To keep the morale high of employees, HR conducted various activities, including Monthly Birthday bashes with fun activities, YP Day Celebrations with Indoor Games, Navratri, Diwali Party, and New Year Celebrations.

- Online Attendance: We have started tracking attendance of our Field Coordinators through HRMS – Geo Tagging & Geo Fencing mechanism.

- Assets Management: Employees Assets are managed through HRMS.

- PMS – 2022: Associates performance for the period from August 2020 till March 2022 was evaluated and Salary revision accorded to all eligible Associates.

- Statutory Compliances: Adherence to Statutory compliances (i.e., Timely payment of Provident Fund contributions and Profession Tax to Government Authorities. Ex-Employees PF claims are getting settled at regular intervals and without any hassles.)

- ABRY (Atmanirbhar Bharat Rojgar Yojana): Employees Provident Fund Scheme – Through the implementation of this scheme for our PF Subscribers, we have saved Rs. 4,96,298/- till June 2022.

- Renewal of Group Medical Insurance Policy: Total 7 employees’ claims were settled for Rs. 2,86,000/-.

- Created a mobilization app for our field staff which enables them to enter the data in offline state and then sync it with our Ops app whenever they have connectivity. This helps in better analysis and leads to improved performance.

- A centralized team at Head office manages the infrastructure across all locations and ensures smooth working of our field staff using various tools and technologies.

- An automated Call Centre was set-up to handle large volumes of calls and consolidated reports are generated, which enable us to take quick actions.

- Technical resources were trained to upload student data on NSDC portal and independently manage the interactions to solve the technical issues of the portal.

- We are now collaborating with Koita Foundation to replace our existing ops app. The new software will have enhanced processes from mobilization to placement with additional automation and in-app notifications.

- Employee Engagement Activities: To keep the morale high of employees, HR conducted various activities, including Monthly Birthday bashes with fun activities, YP Day Celebrations with Indoor Games, Navratri, Diwali Party, and New Year Celebrations.

IT- MIS
Ida Pereira - Sr. Manager

Year on year we move forward by implementing innovative solutions and creating a digital YP!

Key Highlights of IT Function in 2021-22

While we have implemented various user-friendly and simple in-house systems for our staff, it was important to have data on a single platform. We implemented ‘Zoho Analytics’ a platform that has helped integrate various systems and allows us to analyse data on a single platform. With this, we are now able to analyse data, take faster decisions and improve productivity.

Created a mobilization app for our field staff which enables them to enter the data in offline state and then sync it with our Ops app whenever they have connectivity. This helps in better analysis and leads to improved performance.

A centralized team at Head office manages the infrastructure across all locations and ensures smooth working of our field staff using various tools and technologies.

An automated Call Centre was set-up to handle large volumes of calls and consolidated reports are generated, which enable us to take quick actions.

Technical resources were trained to upload student data on NSDC portal and independently manage the interactions to solve the technical issues of the portal.

We are now collaborating with Koita Foundation to replace our existing ops app. The new software will have enhanced processes from mobilization to placement with additional automation and in-app notifications.

Success Story of Mehwish Khan

I come from an orthodox family and was very shy. I wanted to develop my skills and become confident to face the dynamic world. I learnt about Yuva Parivartan, the courses that are offered and the expertise of the trainers. With the help of my family, I grabbed the opportunity, registered myself at the Bandra LDC Centre and completed Web designing, basics in Java and Data entry operator courses in October 2021. I am now working in IT – MIS dept. of Yuva Parivartan.
**Academics**
Archana Arora - Sr. Manager, Head Academics & Examination & Certification

Yuva Parivartan's mission to create inclusive & sustainable livelihoods through skilling at scale remains at the core of all our actions. Moreover, 'What' & 'How' to train to score 'Maximum Livelihoods' in a very challenging environment of COVID & its aftermath, remained the focus of Academics at Yuva Parivartan.

Keeping the above in mind & the evolving livelihood trends post Covid; BFSI, BPO, Tourism & Hospitality, Retail, ITeS & Healthcare sectors were identified as high demand priority sectors with employment potential, and in alignment with YP youth aspirations and capabilities.

With the overall aim of making skill training available to our current students and in addition, reaching out to many more, we scaled up the Phygital training model piloted in FY2020-21, upgraded it with new features & tools to ensure better learning & understanding of students. The launch of a central online class schedule, & using digital marketing techniques for mobilisation of students, supported by a pool of trained trainers, helped us to get students from different geographies join the PHY-gital model even during the lockdown period for theory classes.

A repository of online digital content was created including PowerPoint presentations & videos for trainers & students. Multi-lingual (Hindi, English & Marathi) question banks were upgraded. Old program course content was upgraded & re-tailored to suit rural & urban India needs & requirements.

A pool of qualified & experienced trainers was created for Training the Trainers. Trainers underwent a 10 hours program to acquaint themselves with zoom app & its features. LDC trainers also underwent a refresher program in Soch-ka-Parivartan, to discuss the key soft skills necessary for livelihoods. Some new programs of short-term duration with focus on rural livelihood which were started, include Multiskill (construction based), Basic Painting, Recyclable Waste Collector and Segregator, Solar system Equipment repairing & installation, LED bulb installation & repairs, Jewellery Making, Nail art, Plumbing, Agri-food processing, Rangoli artist, Jansevak to name a few.

Our focus also remained on forging new partnerships with industry experts & specialised content developers to use their wealth of experience in understanding the finer nuances of the current skills, both technical and soft skill requirements by industry to retain candidates.

Partnerships with NSDC & Skill India were successfully renewed up to 2025, for over 100 skilling programs spread across 20 sectors, suitable to generate income & livelihoods for rural & urban youth & women of India.

**Examination & Certification**

Quick, fast & timely examination & issuance of certificates remained the priority of the function. 100% exams conducted on mobile based app.

3rd party assessment by NSDC approved assessors scaled up to 2000 students across Healthcare, Apparel, Constructions & BFSI sectors.

**Finance & Accounts**
Archana Nair - Director

During Financial year 2021-2022, our FCRA (Foreign contribution regulation act) registration was renewed for next five financial years.

Healthy cash flow situation was our focus during FY’22. In spite of lower donations, we were able to create Rs. 6,00,00,000 (Rupees Six crores only) worth of Vocational Development Fund during last three financial years for future expansion.

We could grow and successfully manage the operations despite the lower cash inflow, due to understanding support and cooperation of all the departments.
Social Impact has been measured at YP for the past 6 years. Last year we introduced 2 new feedback surveys to capture student feedback. Some findings from Feedback 1 survey

We could reach 67% of the students. Of these 87% were females and 13% were males. 53% of the students were between the ages of 16 yrs to 20 years followed by 24% in the 21yrs to 25 years age bracket

69% of the youth joined the course for getting a livelihood

59% of the youth came into YP through friend reference.

98% of the students found the classroom to be neat and clean

99% of the students found the trainer to be effective. 93% of the students found the course content easy to understand and 87% said the teacher used different tools like audio visuals, PPTs to explain the concept.

94% of the students were confident of getting a job post course completion.

For feedback 2 the following parameters were surveyed
Satisfaction with course: 92% of those surveyed were satisfied with the course
Examination and Certification: 56% of the students had appeared for online exams.
Relevance of course for Livelihood: Of those earning livelihood, 69% of the respondents had taken up livelihood in the same field post course completion

For Impact we captured impact at 3 month and 9 month post course completion. For the impact survey we reached out to 3125 students of which 1902 students answered the survey.

- 85% of those who answered were females and 15% were Males.
- Of the total respondents 17% were wage employed, 5% were self employed and 8% were still completing their On the job training.
- 47% were continuing with their education and 22% were unemployed at the time of survey.
- 85% of the respondents who were earning were contributing to their family income & 28% of those were also chief wage earners in their households.
- 50% of the earning respondents were also saving money.
- 37% of the total respondents found improvement in their social status due to income & 61% said that there was perceived improvement in respect received from society.
Research
We undertook desk and field research on the following topics

Need analysis was done in the following areas:

Bhayandar Uttan, Gorai and Anrarna
The need analysis was conducted to understand the feasibility of locations in terms of youth demand for courses, potential livelihood opportunities and skills in demand in the specified locations etc.

Desk Research

**Location Vashind** - The desk research was done to understand the demography, industries and type of blue collar jobs opportunities available at the location.

**Large cap companies** - the objective of the desk research was to understand their CSR policy, thematic areas and geographies they work.

Field Research

**Youth Aspiration Survey** - The youth aspiration survey was conducted in Mumbai, Pune, Raigad, Palghar and Thane. The survey objective was to understand the youth aspirations in terms of skills, career options and education.

**Industrial Associations** - To understand the scope for employment, we conducted surveys with the industrial associations in Pune, Mumbai, Raigad, Palghar districts.

**Stakeholder survey** - The stakeholder survey was conducted amongst the community to understand their perception about livelihood options available in their areas.

Counseling
Like last year we continued reaching out to students through virtual sessions. Our youth went through a tough time with online learning in their colleges, uncertainty about jobs, lack of funds to start new businesses etc.
We are happy to report that we created content for our virtual sessions which was appreciated and liked by the students.
The topics that were covered through counseling were - developing self-awareness, motivation, coping skills, dealing with uncertainty, anxiety, etc.
As part of these sessions meditation and relaxation sessions were also conducted with the youth.
Through these virtual sessions the counselors could connect to more than 80% of the LDC students.
As every year we organised Yoga for our students and Head Office associates on occasion of International Yoga Day. Mental Health programs were conducted with students during Mental Health week on various topics like Stress Management, maintaining a balance between home and work while working from home.

Volunteering
Last year a number of corporates connected with our students for virtual volunteering sessions. Important and informative topics like Interview skills and Resume making, Work ethics, Communication skills, Financial Literacy and Cyber security were covered. Big thanks to Nomura, PWC, Bank of America, Mercer volunteers for the skills training.
Tata Group volunteers conducted sessions on Email Etiquette
ConnectFor helped us with volunteers for content development.
Last year we had interns from colleges like NMIMS, Chetna college, SNDT, TISS etc. who helped us in mobilization, research and content creation. We wish to thank Mr Suneil Kamat who has been a friend of YP for the past 3-4 years and has always stepped in to train our Contact Center team to improve their communication skills and also helped train our front office staff.
Building A Strong, Resilient path to the new normal

With an omnipresent pandemic, 2021 began with finding new ways to navigate in this new world. For MarCom this meant the need to radically simplify our communication, to better position ourselves to grow and fully leverage our capabilities – from creative storytelling to technology & data expertise – that our audience demands, while staying true to Yuva Parivartan’s brand tonality.

By comprehending the disparity between our user base (Rural & Urban), we devised every communication method with 4As in mind: acceptability, affordability, awareness, and accessibility. With an increasing number of users moving to digital platforms, the urgent need for digital content arose, as well as the requirement for user-friendly, integrated solutions that offer an excellent user experience and are easy to access.

The process shed light on the significance of pivoting towards nimble marketing strategy in the ever-changing geography. While there are multitudinous ways to pivot, implicit direction in skill development geography in India is through better consumer engagement.

Resilient Year

A very positive year in terms of content consumption on our skill training videos and digital growth. We had a staggering organic growth across all our digital platforms.

### Accelerating Growth

As we inch towards 25th year of changing lives, we have set our vision towards Bharat@100. Accelerating our growth through adapting latest technological advancements and radically simplifying our communication to better position ourselves to empower the youth of today and tomorrow.

We aim to reach out to millions of youths & engage with them through a sustainable organic approach, investing more in our digital initiatives and leveraging its strengths.
My name is Kanha Mishra and I live in Raipur in Chattisgarh, with my Mother and my younger brother. I lost my father when I was young and since then have only seen my mother struggling to make ends meet. Just when I was looking for an option to earn, I came across the Yuva Parivartan NGO and its skilling and livelihoods program.

Here I learnt about the Hotel Management Course. I was explained very well the entire course and how I would benefit from it after successfully completing the course and undergoing the training.

I knew that if I did this course well and sincerely, I was going to be able to earn money, enough to support my mother and my brother too. I have now given my interviews in some 5-star hotels in Raipur and soon will be joining one of the 5-star properties.

I am grateful to the YUVA PARIVARTAN team for training me so well, that today I am a more confident person to take on responsibility and support my family.

He is a 20 year boy who belongs to Patna-Bihar. They are 3 members in the family. He had completed his schooling from Bihar School Examination Board. He belongs to a very low financial background. His father the only bread earner works for a garments factory in Delhi as a daily wage worker. The owner of the garment factory was so helpful and supporting that when his father told his owner about him, the owner was very happy to help them in every possible way and called him to Delhi. So he helped and guided him and also got me enrolled in the SHA program.

After completion of his training the hotel recognized his hard work and passion for the F&B Service department, Hotel offered him the post of F&B Associate. Now he can help his family financially as well.
The trying times during the pandemic taught us the importance of connecting with other NGOs and the value of support and help. Kherwadi Social Welfare Association launched a new initiative – YUVA ENGAGE at this time to handhold NGOs and middle stage NGOs wanting to scale-up.

The Yuva Engage -incubation program helps train participating NGOs in the social sector with practical knowledge about the formalities of setting up an NGO, documentation, legal formalities and mandatory submissions.

The program also equips the participants to write good proposals for raising funds and helps them to structure their work well, increasing their impact. People management skills, the need assessment, the social value proposition, all of this and more will be discussed with participants. Last year we had a successful batch with 9 participants completing the incubation program.

This year we have approximately 100 + participants registered in the program. This is a free on-line six months program for participants to learn and equip themselves with the necessary and relevant information for successfully setting up and running their NGOs.

The idea behind this program is to hand hold all the participating NGOs, so that they are able to carry out their work in the social sector with greater efficiency to have a higher social impact!

We encourage people to transform lives.

People at KSWA & YP

KSWA is managed by Trustees and members of the Executive Council who are elected for a three-year term. The elections were held on 23RD September, 2021 and the new team is in place for the period 2021-2024.

The Advisory Board is informal in nature with prominent citizens from varied fields to mentor and guide YP and its activities.

Meetings: The Executive Council meets four times a year, once in each quarter and the AGM was held on 23rd September, 2021.

The day to day management of KSWA Trust is handled by the President and Hon. Secretary. Yuva Parivartan is professionally managed by the CEO Mr. Milind Chitre and is assisted by a team of senior management and staff across several states, consultants and volunteers. The President Mr. Kishor Kher & Hon. Secretary Mrs. Mrinalini Kher continue to guide and supervise the YP Movement.

Acknowledgements

All of us at Yuva Parivartan are extremely grateful and appreciative of the contribution made by our partners, supporters and associates during the year. The theme for 2021-22 Annual Report was “Reaching out to help transform lives”. Post the pandemic, loss of jobs and incomes adversely affected many people around us. But thanks to our Chairman Dr. R. A Mashelkar and our very strong Advisory Board and team who rose to the occasion, we were able to cope with the difficult times. Our Auditors, Legal and statutory Advisors and Management consultants all helped us to get all the needed approvals.

Thank you Mr. E.A Khirsagar, Mr. Anand Desai, Mr. Shahade, Mr. Sandeep Shrikhande. Special thanks to Paresh Sukhthankar, Jagdish Acharya, Nagesh Alai and Sanjay Ubale, who encouraged us and continued to provide counsel to our management team.

Our steadfast volunteers Veena Gidwani, Neeraj Agarwal, Dolon Ghosh & Jairaj Jatar along with MBA students and corporates helped us serve better and motivate our staff. I must mention, the appreciation we have for Kamal Mulla & Roshni Anand who raised money through crowd funding for the rehabilitation of rescued girls and Rita Das of USA for her deep involvement, in our projects. The people behind MMF, Cybage & Ma Foundation have trusted us and understand the challenges of YP staff with patience and are helping us at YP to push our frontiers to other states.

Meeting the Magsaysay award winners Dr. Abhay Bang, Dr Prakash Amte and families in November 2021 was a memorable and motivating event in our lives and YP hopes to work closely with them in the region.

Grateful thanks to Mr. Ulhas Joshi for inputs in the Partnership vertical on value proposition. Thanks Rajeev Narang for the “Orbit Changing “workshop for management. Special mention of our Trustees Mr. S. K. Palekar and Girish Pikale for their guidance.

We also acknowledge the rock solid support of all the YPians who faced the financial crisis of the covid 19 with fortitude as a family and helped YP come out stronger & more motivated.

Lastly, the heartening stories of success from our Operations & IRDP team, confirm our belief that rural India should be an important area of focus for YP in the years ahead. We sincerely thank all the Foundations, Corporates, Trusts and our many individual partners for their continued involvement.
Success Stories

The Kondhwa success story.
Kondhwa a suburb of Pune was chosen as an area for a YP centre, being the choice of the donor -Cybage Pune. The centre faced maximum difficulties in finding a good location, than came the pandemic, lockdowns and strikes etc. This was through 2019-21. But something changed and the current team made it their mission to be the best.

Mohsin and two wheeler courses
Mohsin Munaf Shaikh, a 10th fail boy, now is a good 2 wheeler mechanic earning Rs.20,000/- per month.

Umesh Mane another student of the multi-skill technician course from Kondhwa, lives with his widowed mother & an uncle. Family income was only Rs.10,000/-. His skill has helped him to get a job in Airoli Electrical and earns Rs.12000/- p.m. Being a class 10 dropout, he has found his future.

Happiness is when YP shows its impact on so many lives.

Jeevan Kamble
This is Jeevan Kamble from Lokmany Nagar Thane. His 12th class education could not help him get an employment. After completing his wireman course, today he is in a stable job in Crompton with income of Rs.8000/- p.m. Like Jeevan, his friend Vekhande Sanjay Nagnath from Valseth, Shahapur, Thane was also 12th pass. His income was from daily agri labour. Today he has started his own electrician services with a small beginning and will soon have his own successful business.

Vekhande Sanjay Nagnath
Chandreshekar Pimpale, residing in Kumbhavali Taluka, Dist Palghar (Maharashtra) is the proud owner of the “Pimpale Goat Farm”! An ITI educated, but unemployed youth, he joined the course in Goat farming with the help and encouragement of the local YP field team. Today he owns 40 goats and has earned Rs.70,000/- in 1 year Congratulations Chandreshekar!

Another happy story is of Ajit Ramji Sutar living in Karanjgaon, Manpada, Taluka Talasari, Dist. Palghar. Ajit is 10th pass and lives with his family of four. He took the bold decision to join the poultry course and today has his own “AV Deshi Poultry Farm & Services”!! Talasari is one of the large tribal districts of Maharashtra. The reason for joining this course was that with minimum investment, and less space with less incubation time, he could start earning. Today, he has 1000 hens in 3 varieties and @rate of Rs.300/- for one chicken he is making a good profit.

Saniya Shaikh’s story is one of determination and hard work. She lives in Devlali, Pravara Taluka of Ahmednagar Dist in Maharashtra. She has completed her Nursing course and now earns enough to support her parents. The YP’s model of working with local SHG’s, community workers and government functionaries has been successful in supporting youth.

MS Sakshi Kunde is a 22-year-old girl who stays at Rahuri, Maharashtra She got married at the age of 18 years i.e. in 2020 during the Corona period. The husband and wife had some dispute, so, her husband left her at her Parents home. She suffered a lot and went into depression. She thinks there is need to engage her self in work to come out from depression. She started looking for a job but she couldn’t get one. One day she met Yuva Panvaritan Mobilizer and got information about the Nursing Assistant course and a Job Opportunity. After doing the training she got a Nursing job and now she earns Rs 6000/- Per Month and her husband not only respects her but also supports her.
Manali Pokale from Venurle, Sindhurg District, Maharashtra has her own cake shop – "Magic Creams" helping her earn well and giving her courage to become an entrepreneur. YP's role in reaching out, providing opportunities to youth in simple skills has definitely transformed lives.

This is Pushpa, 36 years old and she lives in the villages with her husband and children. Her husband is a security guard whose income is not enough to run the household. Then after completing sewing course, today earns up to 6000/- per month. Thank you very much for Yuva Parivartan, due to which I am able to help my family to a great extent.

Ms. Sayali Goswami lives in Bhandara, Maharashtra. Unfortunately, she lost her father during the pandemic. This compelled her to leave education and she happened to join YP's cake making course. Today, her cakes are selling well and her earnings of Rs.7000/- p.m. help her to support the family and to continue her education.

My name is Babli and my father's name is Ayoob Shah. I live in the village with my parents, brother and sister. My father is a farmer and income is limited due to which I could not study after 12th. Some girls of my village were learning parlor course at Yuva Parivartan in our own village. And today after completing this course I have started a small parlor at home and earn up to 4000/- per month.

My name is Pushpa and I live in the villages with my husband and children. My husband is a security guard whose income is not enough to run the household. Then after completing sewing course, today earns up to 6000/- per month. Thank you very much for Yuva Parivartan, due to which I am able to help my family to a great extent.
